# IT solutions that work for your business.

CONNECTING YOUR BUSINESS TO THE TECHNOLOGY RESOURCES YOU NEED.

**We Know Business !!**

AQIES provides complete, integrated solutions to manage financial and accounting, Billing, warehouse, business intelligence and Customer service processes.

Domain competence and technical prowess go hand-in-hand at AQIES. Widely recognized industry experts head our Strategic Business Units. The foundation of our domain expertise lies in our exhaustive experience in delivering IT solutions to a wide range of industries. It is our constant endeavor to upgrade the quality of our solutions by enhancing our functional understanding of the focus industries. Our industry experts keep abreast with the latest trends in these industries, and are involved in all the stages of the projects, including the initial system studies and solution design.

## Flexible solutions for Your business needs

### APPLICATION MANAGEMENT

IT landscapes today are large and diverse, trending toward more complexity, not less.

Our research indicates that this complexity has become costly – with an estimated two out of three IT dollars now spent maintaining existing technology. IT executives are faced with the unwieldy challenge of controlling cost, and delivering on quality and risk, all while improving returns and responding to the ever changing needs of the business.

AQIES Application Management Services (AMS) provides a flexible structure that allows us to tune the delivery of our services to the specific objectives and priorities of our clients. Our straight-forward approach is focused on helping our clients in their efforts to achieve better business results and continuous measurement, and enable smart, efficient decisions to drive down costs, improve quality, and accelerate value.

### ENTERPRISE MANAGEMENT

Our Enterprise Service Management (ESM) aligns the entire IT organization to common business goals and operating rules using an innovative suite of services and an ITIL-based operating environment that standardizes IT across the enterprise.

Our clients are realizing substantial benefits from ESM, including reduced operating costs, improved service levels and higher returns on strategic IT investments.

### CUSTOM SOLUTIONS

With more than 20 years of engineering, design and technology expertise, AQIES custom solutions group has developed solutions for applications in diverse sectors, including business, Healthcare, government and higher education, and industries such as broadcasting, emergency response, distribution and research.

### WEB SOLUTIONS

AQIES is a leading implementer of web frameworks for mid-to-large sized organizations representing a broad range of industries. Leveraging our strategic, creative, and marketing insights, we deliver robust and purposeful websites using industry-leading toolsets. From clearly defining your content management system needs to tool selection, implementation and training, we provide a consistent and proven methodology around industry best practices.

**We are your Web Department at work.**

### EBUSINESS SOLUTIONS

In today's market place it is very important that you have a strong presence on the web. So important that it can mean the difference between you or your competition. AQIES E-Business Solutions will give you that edge to make your business more effective.
